BUSINESS FIELDS

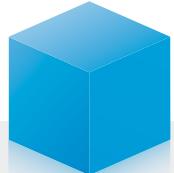

HT LABOR + HOSPITALTECHNIK AG arbeitet fachübergreifend mit Architekten, Ingenieuren und Kunden. Wir unterstützen umfassend das gesamte Spektrum der Grundlagenermittlung über die Entwurfs- und Ausführungsplanung sowie Kostenplanung und Ausschreibung bis zur Projektüberwachung und Dokumentation.

Wir bieten einen funktionierenden **Konstruktions-Kit** für hochinstallierte Bereiche mit hoher Qualitätsanforderung an Oberfläche und Funktion.

HT LABOR + HOSPITALTECHNIK AG cooperates interdisciplinary with architects, engineers and customers. Comprehensively we support the entire field from the determination of the basic values via the outline- and execution planning as well as the cost planning and tender procedure up to the project supervision and documentation.

We offer a **construction-kit** for functional and extensively equipped areas with demand on high quality regarding surface and function.

MATERIAL

MATERIAL

METALL

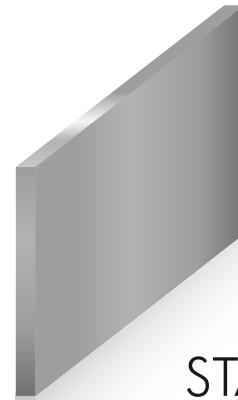

Varianten

- Edelstahl geschliffen
- Edelstahl pulverbeschichtet
- Stahlblech pulverbeschichtet

Eigenschaften

Werkstoff-/Oberfläche:

makroskopisch glatt und porenfrei, widerstandsfähig gegen lebende Organismen und chemische Stoffe, resistent gegen alle im Krankenhaus gängigen Reinigungs- und Desinfektionsmittel

STAHL
STEEL

GLAS

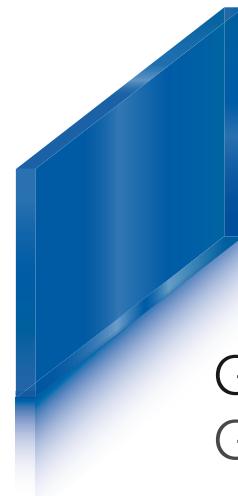

Varianten

- Sicherheitsglas
- Isolierglas
- Glas transparent
- Glas mit farbiger Beschichtung
- Glas satiniert
- Glas LED hinterleuchtet

Eigenschaften

Werkstoff-/Oberfläche:

makroskopisch glatt und porenfrei, widerstandsfähig gegen lebende Organismen und chemische Stoffe, resistent gegen alle im Krankenhaus gängigen Reinigungs- und Desinfektionsmittel

GLAS
GLASS

IMPACT

Varianten

- Faserzementplatte
12mm stark
nicht brennbar

Beschichtung

- FULLCOLOR
farbig lasiert mit durchscheinender Struktur
- LAMINAT
Schichtstoff-Auflage
- CERAMIC
Ceramic-beschichtet

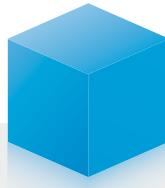

Eigenschaften

Schichtstoffoberfläche:

glatt, hohe Abriebfestigkeit, UV-stabil, wasserundurchlässig, schlagzäh, widerstandsfähig gegen lebende Organismen und chemische Stoffe

IMPACT
IMPACT

METAL

Versions

- Stainless Steel ground with grain
- Stainless Steel with powder coating
- Steel with powder coating

Quality

Material/surface:
macroscopic flat and free of pores, resistant against living organism and chemical substances, resistant against all general hospital detergents and disinfectants

GLASS

Versions

- Safety glass
- Insulated glass
- Glass transparent
- Glass with colored foil
- Glass satined
- Glass with backlit

Quality

Material/surface:
macroscopic flat and free of pores, resistant against living organism and chemical substances, resistant against all general hospital detergents and disinfectants

IMPACT

Versions

- Fibre cement plate
12mm thick
non flammable

Coating

- FULLCOLOR
UV-hardened finish on acryl coating covers up color, coloured glaze with translucent structure of the fibre cement
- LAMINATE
laminated
- CERAMIC

Quality

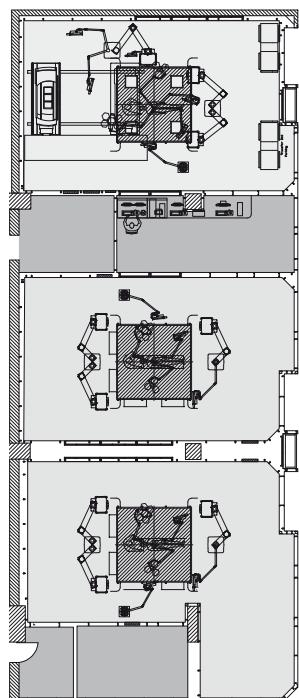

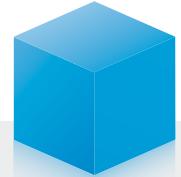

Laminated coating:
plain, high abrasion resistant, UV-stable, water-resistant, impact resistant, resistant against living organism and chemical substances, resistant against all general hospital detergents and disinfectants

OPERATIONSBEREICH

OPERATING ROOMS

12

HYBRID OP MIT INTEGRIERTEM CT

Bereiche

- 2 allgemeine chirurgische OPs
- 1 Hybird OP
- Kontrollraum

Ausführung

- Wände, Türen und Fenster mit Strahlenschutzausrüstung 2 mm Pb
- Hinterleuchtete Glaswände
- Bedruckte Wandbereiche
- Im Wandsystem integrierte Kamera- und Bildgebungssysteme

HYBRID OR WITH INTEGRATED CT SCANNER

Areas

- 2 general surgery ORs
- 1 hybrid OR
- Control room

Design

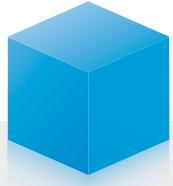

- Walls, windows and doors with x-ray protection 2 mm Pb
- Glass walls with integrated illumination
- Wall printing
- Integrated camera systems and screens

OPERATIONSBEREICH

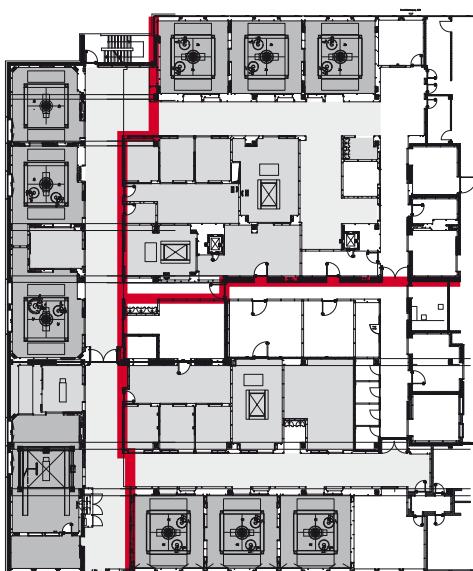

OPERATING ROOMS

14

OP-TRAKT UMBAU IN 3 BAUABSCHNITTEN

Bereiche

- Allgemeine chirurgische OPs
- Minimal-invasive Chirurgie
- Gefäßchirurgie
- Hybrid-OP mit Kontrollraum
- Einleitung
- OP-Flur

Ausführung

- Strahlenschutz 1,25 mm Pb
- Glaswand im OP
- Einbauschrankanlagen im Flurbereich
- Impact-Wand und Möbel in den Vorräumen

OR-AREA RECONSTRUCTION IN 3 SECTIONS

Areas:

- General surgery
- Minimally invasive surgery
- Vascular surgery
- Hybrid OR with control room
- Preparation
- Corridor

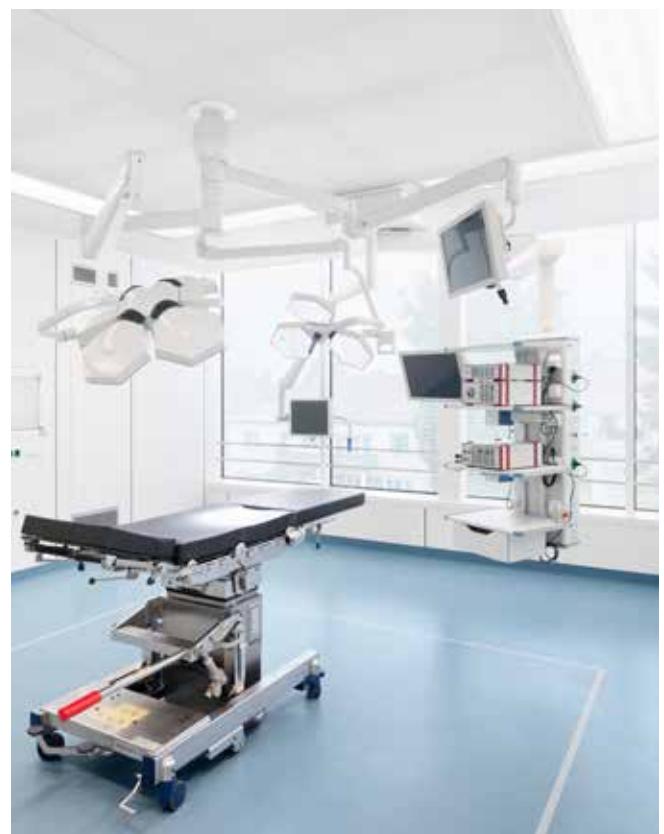

Design:

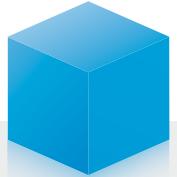

- X-ray protection 1,25 mm Pb
- Glass wall at the OR
- Build-in-cabinets integrated in the corridor wall
- Impact wall and furniture

OPERATIONSBEREICH

OPERATING ROOMS

16

FUNKTIONSBEREICH OP MIT 6 SÄLEN

Bereiche

- Allgemeine chirurgische OPs
- Einleitung
- Flurbereich

Ausführung

- Raumhohe Schiebetüren
- Glasschiebetüren

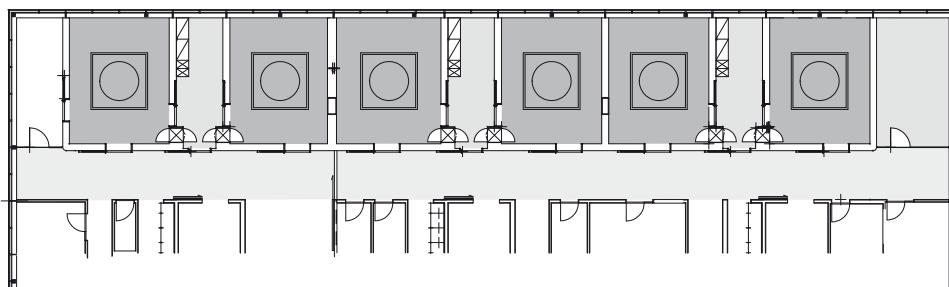

OR-AREA WITH 6 ROOMS

Areas:

- General surgery
- Preparation
- Corridor area

Design:

- Full-high sliding doors
- Glass sliding doors

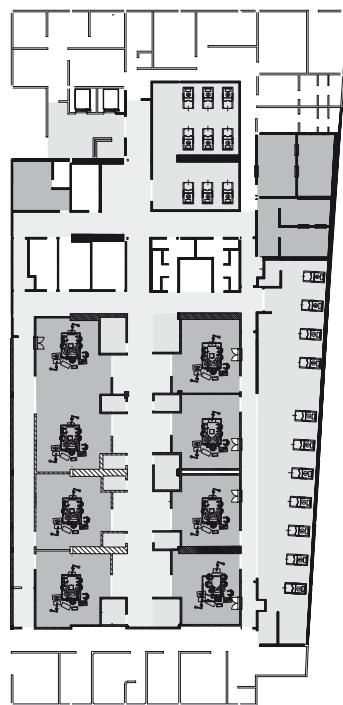

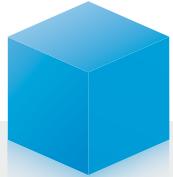

OPERATIONSBEREICH

OPERATING ROOMS

18

OP-BEREICH MIT INTEGRIERTEM HT-CONTROL

(BMS=Building Management System)

Bereiche

- 8 OPs
- Ein- / Ausleitung
- Vorzone
- Flure

Ausführung

- Integrierter Touchscreen mit HT-CONTROL-Raumsteuerung
- Integrierte Schränke im OP-Wandsystem
- Flurzonen mit Waschanlagen

OR-AREA WITH INTEGRATED HT-CONTROL

(BMS=Building Management System)

Areas:

- 8 ORs
- Preparation and Recovery
- Anterooms
- Corridors

Design:

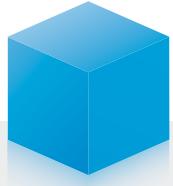

- Integrated touchscreen with HT-CONTROL
- Integrated cabinets in the wall-system
- Corridor area with sinks

OPERATIONSBEREICH

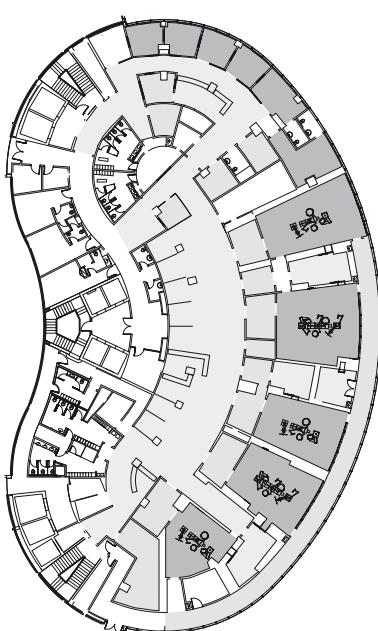

OPERATING ROOMS

20

UROLOGISCHE KLINIK

Bereiche

- OP-Trakt mit 5 OPs
- Vor- und Nebenräume
- Offener Aufwachbereich
- Patientenzimmer
- Flure und Überwachungsbe-
reiche

Ausführung

- HT Media – Kontrollmodul mit Soundsystem
- Fenster mit LC-Glas (opake/
transparente Schaltstufe)
- HT-Sky Ceiling im Aufwach-
bereich

UROLOGICAL CLINIC

Areas:

- OR-area with 5 ORs
- Anterooms
- Wide recovery area
- Patient rooms
- Corridor and supervision area

Design:

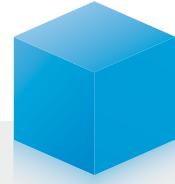

- HT MEDIA - control module and sound system
- Window with LC-glass (opaque/transparent switch)
- Recovery area with HT sky ceiling

OPERATIONSBEREICH

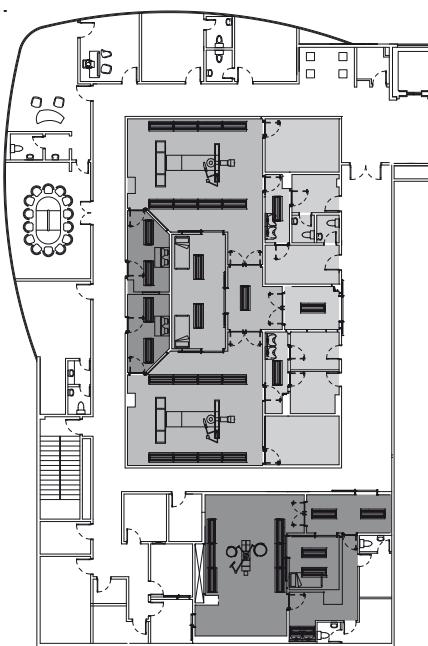

OPERATING ROOMS

22

HERZKATHETER / ANGIOGRAFIE

Minimalinvasive medizinische Untersuchung des Herzens mittels Katheter und/oder diagnostische Bildgebungsverfahren zur Darstellung von Gefäßen mittels Kontrastmittelgabe erfordern je nach Bildgebungsverfahren/ Untersuchungsverfahren eine

Schirmung gegen

- **Röntgenstrahlung**
- **elektromagnetische Felder.**

Die Schirmung verläuft im Wandsystem, wenn nötig, in der Decke und im Fußbodenbelag, und berücksichtigt alle Öffnungen und Systeme für Medienversorgung.

INTRACARDIAC CATHETER / ANGIOGRAPHY

Endoscopic surgery of the heart by catheter and/or diagnostic body-imaging systems with contrast agents require special **shielding against**

- **x-rays**
- **electro-magnetic fields**

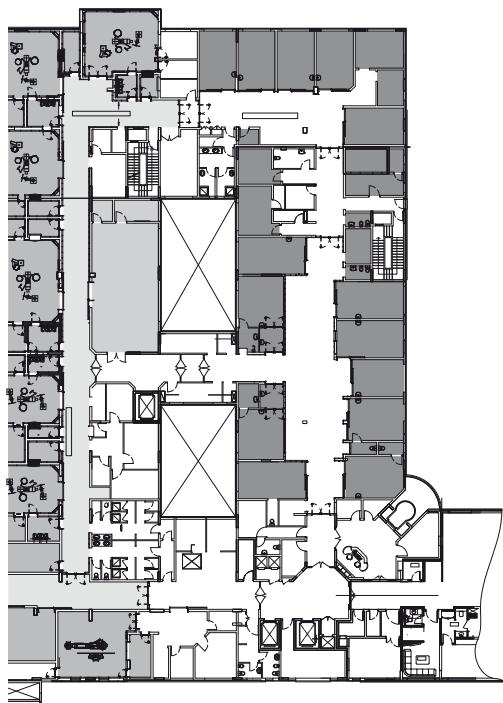

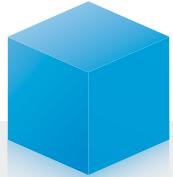

The shielding is integrated in the wall system and considers all ducts for media systems.

OPERATIONSBEREICH

OPERATING ROOMS

24

OPERATIONSTRAKT MIT 6 OP-EINHEITEN

Bereiche

- Eingriffs-OP
- Allgemeiner chirurgischer OP
- Herz OP

Ausführung

Große Schutzzone unter der Zuluftdecke für die Operation am offenen Herzen – zur Minimierung des Wundinfektionsrisikos.

OR-AREA WITH 6 OPERATING ROOMS

Areas

- Day Surgery
- General surgery
- Heart OR

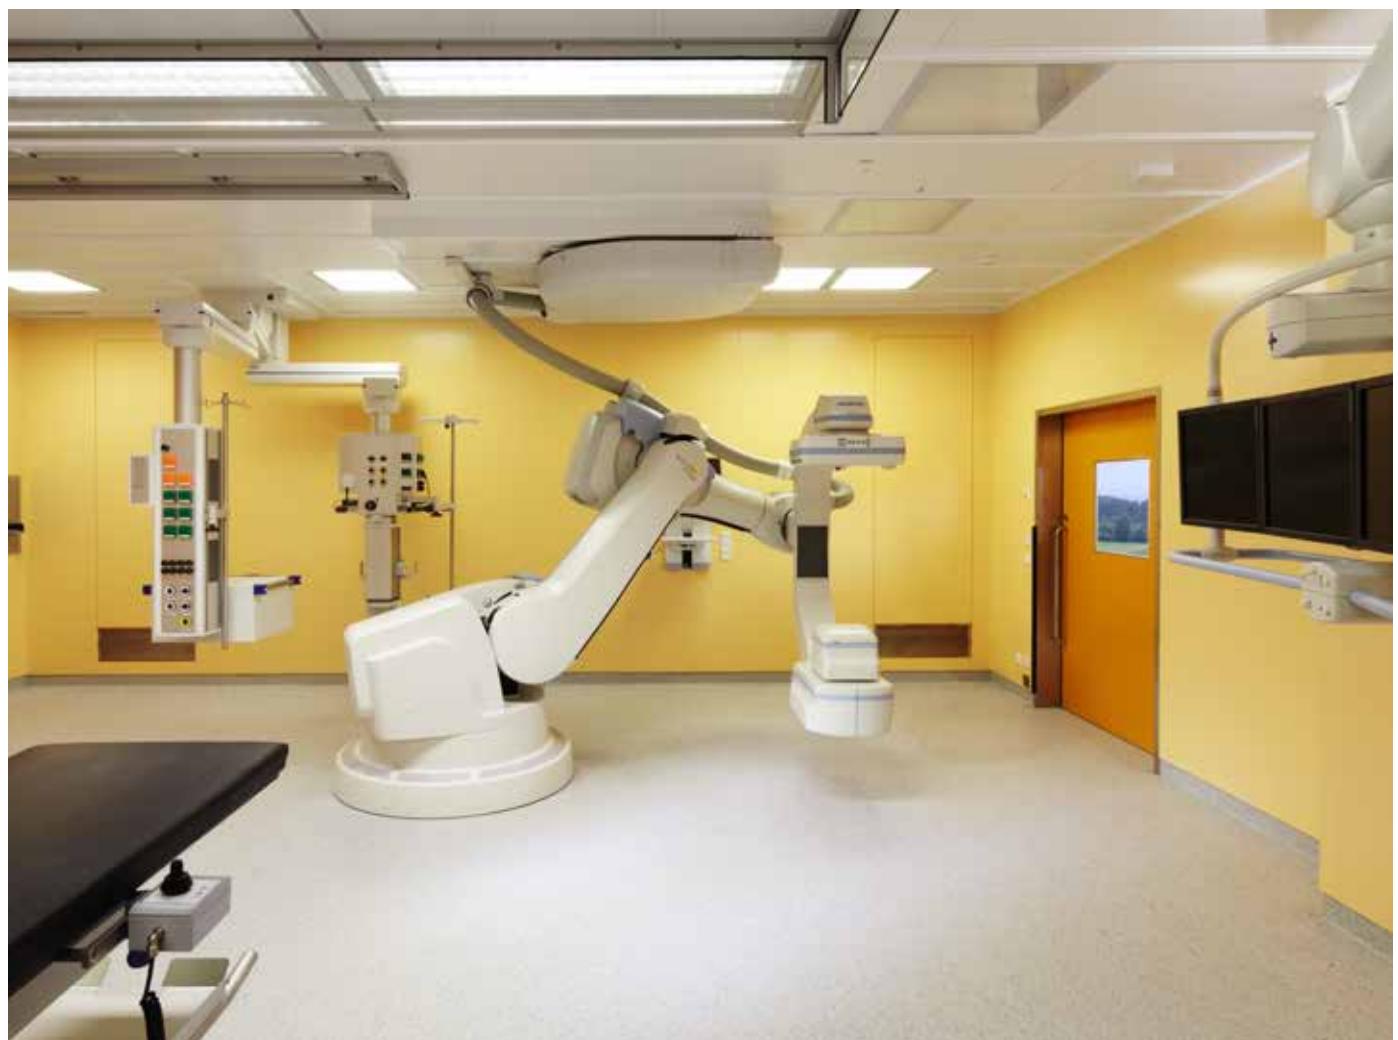

Design

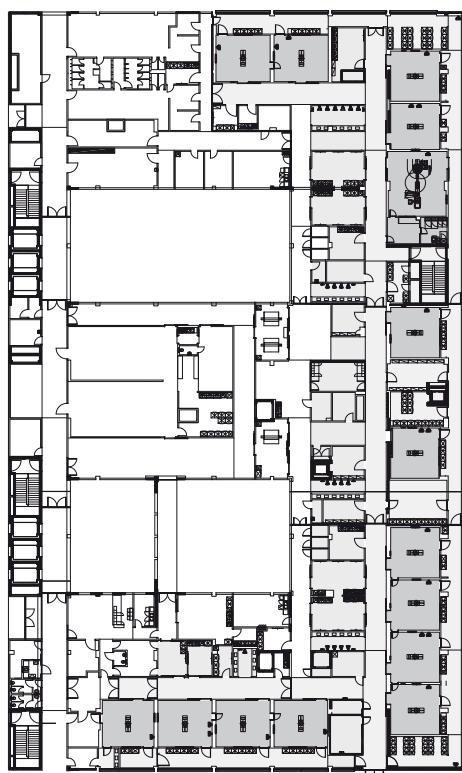

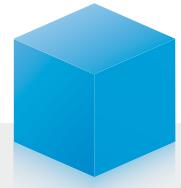

Large protection zone under the laminar flow ceiling for open heart operations - to minimize the infection risk.

OPERATIONSBEREICH

OPERATING ROOMS

26

NEUBAU OP TRAKT

Bereiche

- 14 OPs
- 1 Hybrid OR
- Flure und Vorzonen
- Möbelsysteme

Ausführung

- Strahlenschutzausstattung in Wänden bis 16 mm Pb
- Strahlenschutz-Türen 25 mm Pb
- integrierte Wandheizung

NEW OR-AREA

Areas

- 14 ORs
- 1 Hybrid OR
- Corridors and anterooms
- Furniture systems

Design

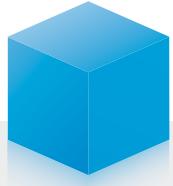

- X-ray protection walls up to 16 mm Pb
- X-ray-protection doors 25 mm Pb
- integrated wall heating

OPERATIONSBEREICH

OPERATING ROOMS

28

OPERATIONSBEREICH MIT COMPUTERTOMOGRAF (CT)

Bereiche

- 9 allgemeine chirurgische OPs
- 1 CT-OP

Ausführung

- **Strahlenschutz** bis zu 2 mm Pb im Wandsystem
- Schaltpult hinter **freistehender Wand mit**
- **Strahlenschutz** äquivalent 2,5 mm Pb
- **Installationsfreier Gleitweg** für CT-Scanner

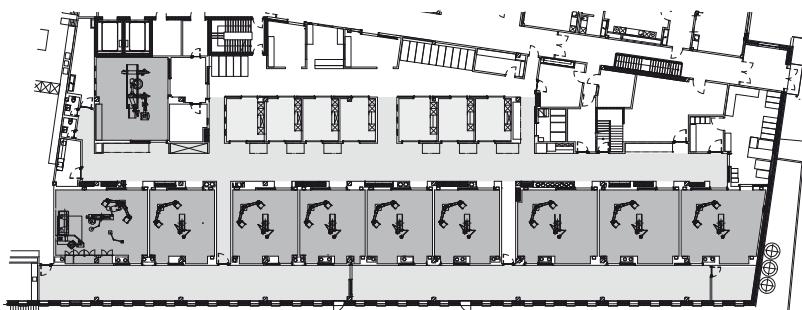

OR-AREA WITH COMPUTED TOMOGRAPHY IMAGING (CT)

Areas

- 9 general surgery ORs
- 1 CT-OR

Design

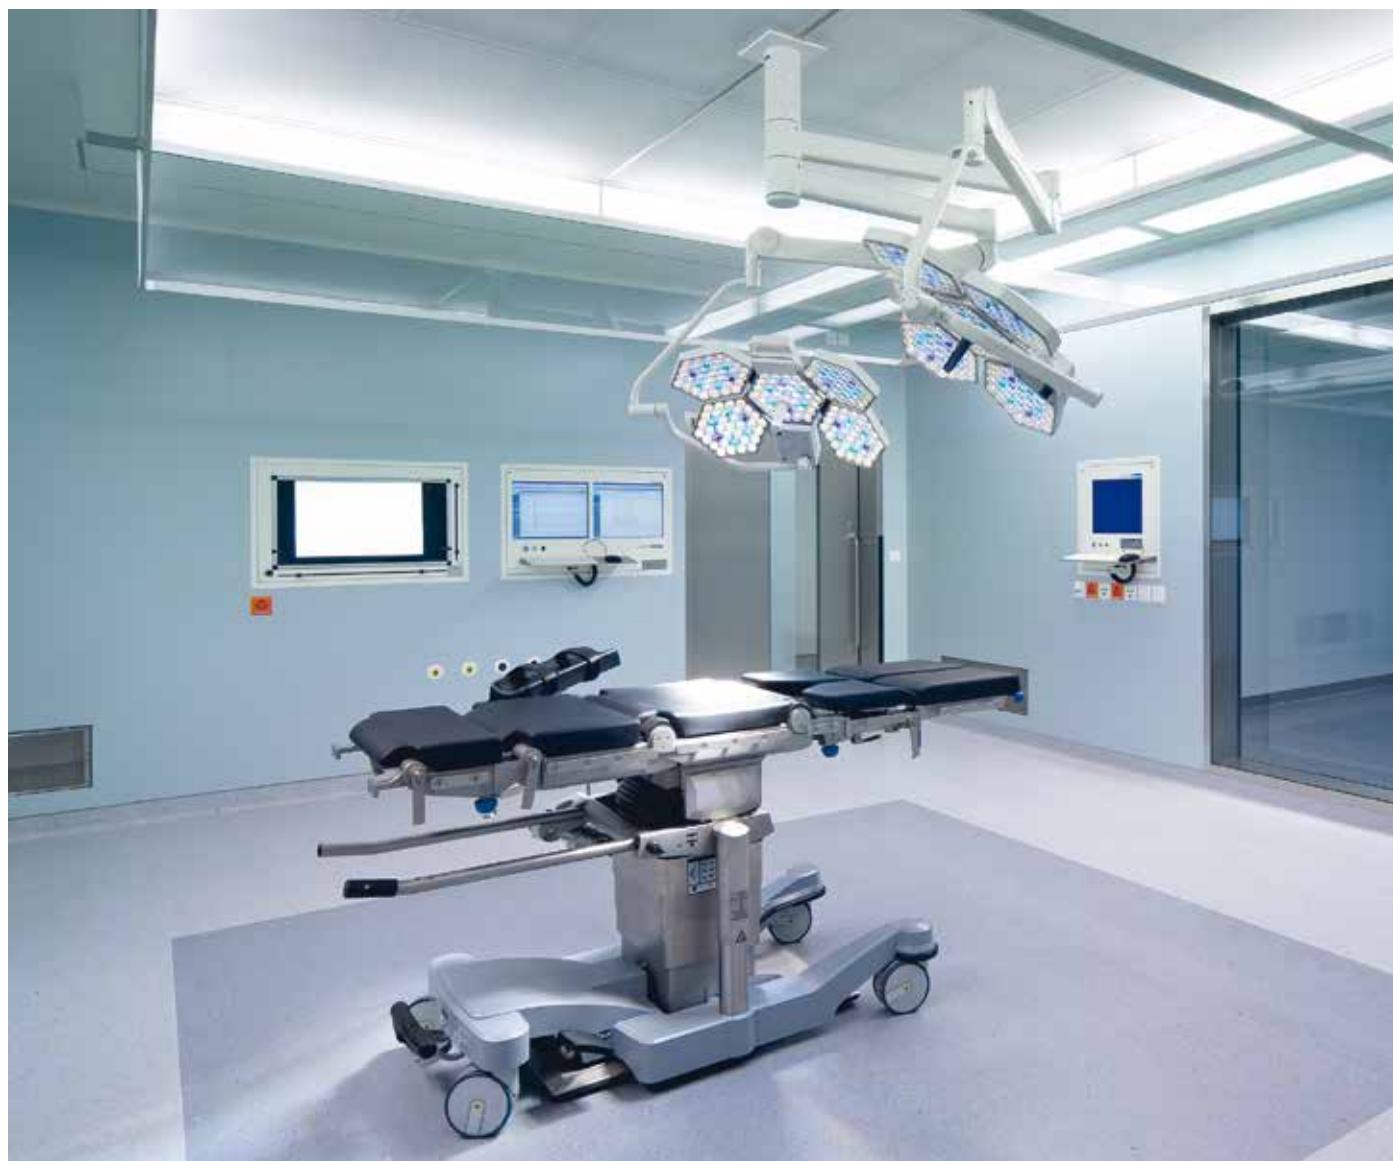

- **X-ray protection** up to 2 mm Pb in the wall system
- Control desk with **free-standing shielded wall** with 2,5 mm Pb
- **Free glide path** for the CT scanner

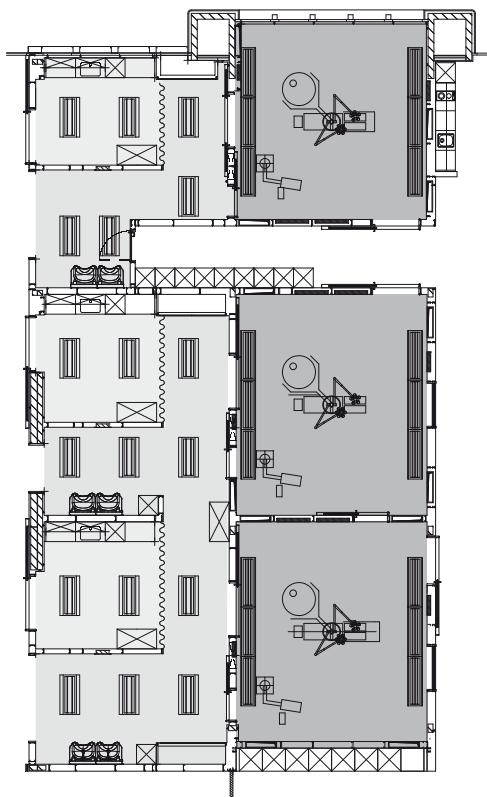

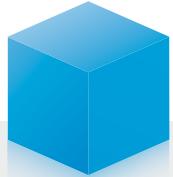

OPERATIONSBEREICH

OPERATING ROOMS

30

REKONSTRUKTION EINES OP-BEREICHS

Bereiche

- 3 OPs
- Patientenvorbereitung
- Flure mit Waschzone
- Möbel

Ausführung

- Raumhohe Verglasungen
- Realisation des Umbaus innerhalb von drei Monaten bei laufendem OP-Betrieb

RECONSTRUCTION OR-AREA

Areas

- 3 ORs
- Preparation rooms
- Corridor area with scrubs
- Furniture

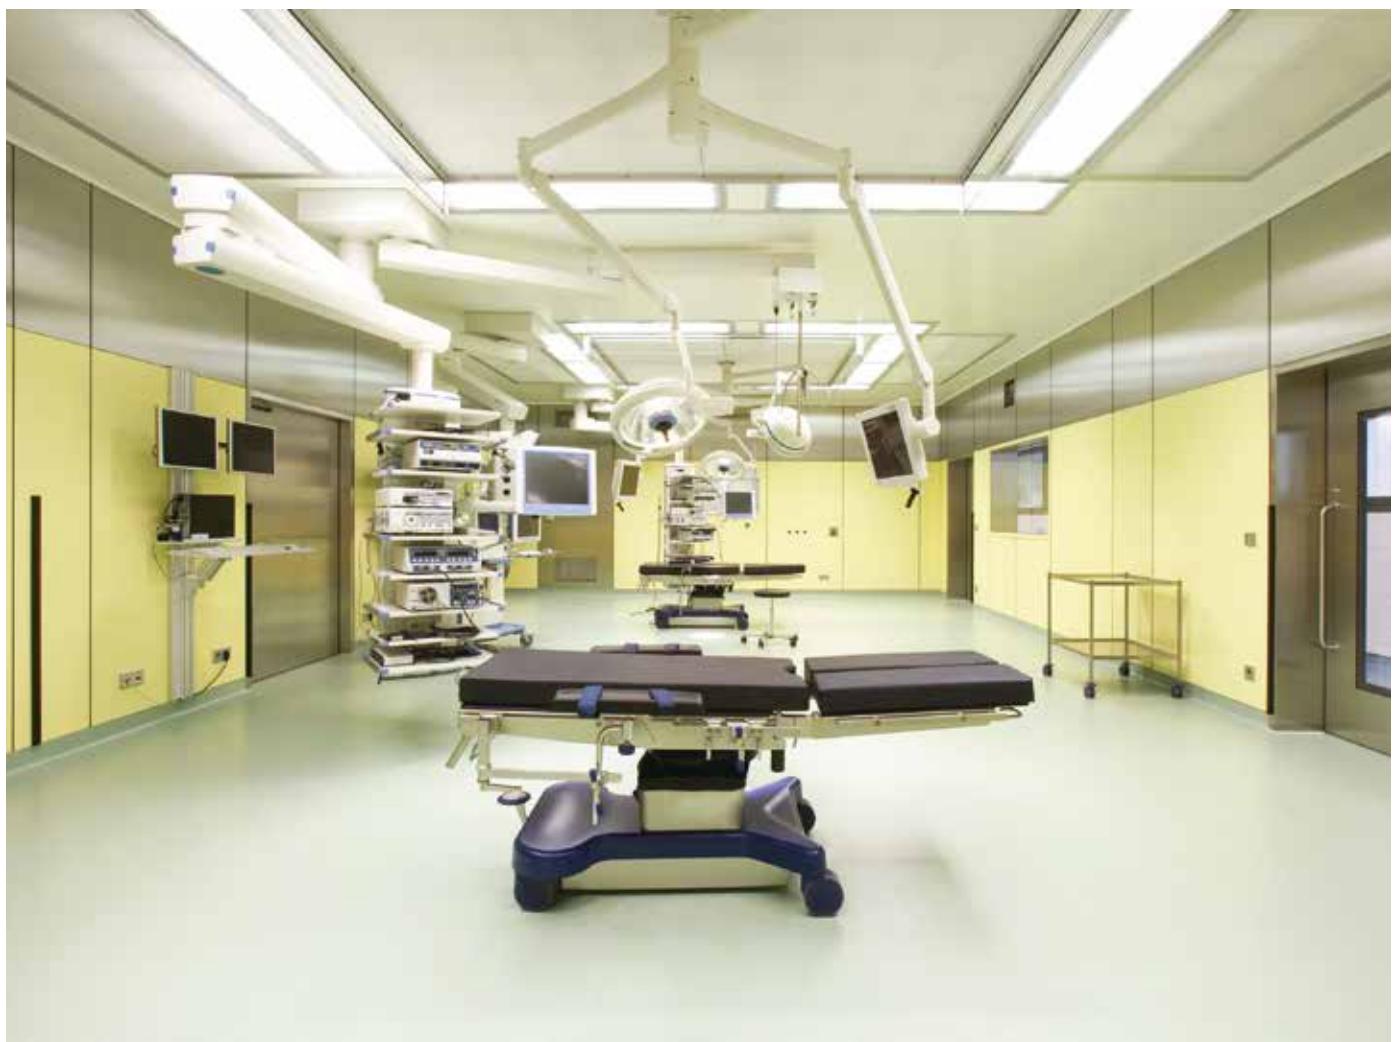

Design

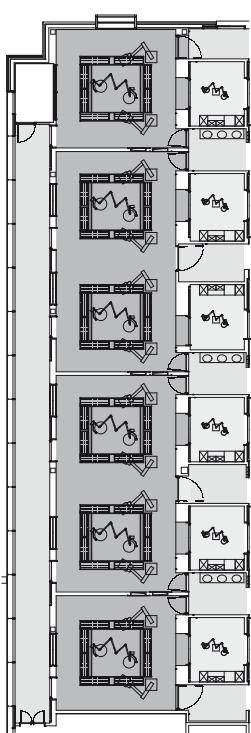

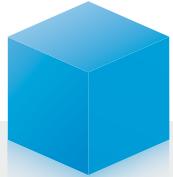

- Full-high glass-system
- The rebuilding was realised within three months during ongoing operation handling.

OPERATIONSBEREICH

OPERATING ROOMS

32

SPORTKLINIK MIT GROSSRAUM OP

zur optimalen Kommunikation
des Klinikpersonals

Bereiche

- Orthopädie
- Sporttraumatologie
- Kardiologie
- Unfallchirurgie

Ausführung

- Operationsraum
mit 2 OP-Bereichen

SPORTS CLINIC WITH
LARGE CAPACITY
for optimum communication of
the clinical personnel

Areas

- Orthopedics
- Sports traumatology
- Cardiology
- Trauma surgery

Design

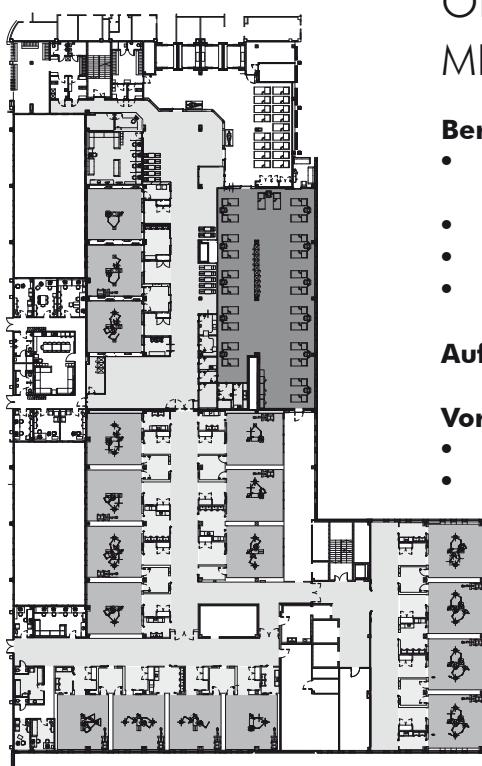

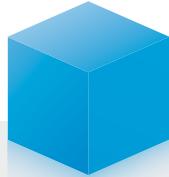

- Operating room
with 2 OR-areas

OPERATIONSBEREICH

OPERATING ROOMS

34

OPERATIONSBEREICH MIT 18 OP-EINHEITEN

Bereiche

- Allgemeine Chirurgie
- Endoskopie
- Orthopädie
- Kardiologie
- Neurochirurgie
- Gefäßchirurgie
- Thoraxchirurgie
- Trauma OP
- Kopf OP

Aufwachbereich mit 24 Betten

Vorzone

- Waschräume
- Vorbereitung

Lager

- Korridor
- Umbettanlage
- Möbel

OR-AREA WITH 18 OR-UNITS

Areas

- General surgery
- Endoscopy
- Orthopedic
- Cardiology
- Neurosurgery
- Vascular surgery
- Thorax surgery
- Traumatology
- Head surgery

Recovery with 24 beds

Anterooms

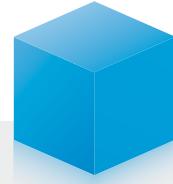

- Scrubs
- Preparation rooms
- Stock rooms
- Corridor
- Patients transfer
- Furniture

OPERATIONSBEREICH

OPERATING ROOMS

36

EINGRIFFSRÄUME FÜR MINIMAL-INVASIVE EINGRIFFE

Bereich

- Flurwände
- Eingriffsräume
- Umkleiden

Ausführung

- Medizinische **Funktionsmöbel** im Wandsystem **integriert**
- **Schränkoberflächen identisch** zum Wandsystem

OR-ROOMS FOR MICROVASCULAR OPERATIONS

Areas

- Corridor walls
- OR rooms
- Changing rooms

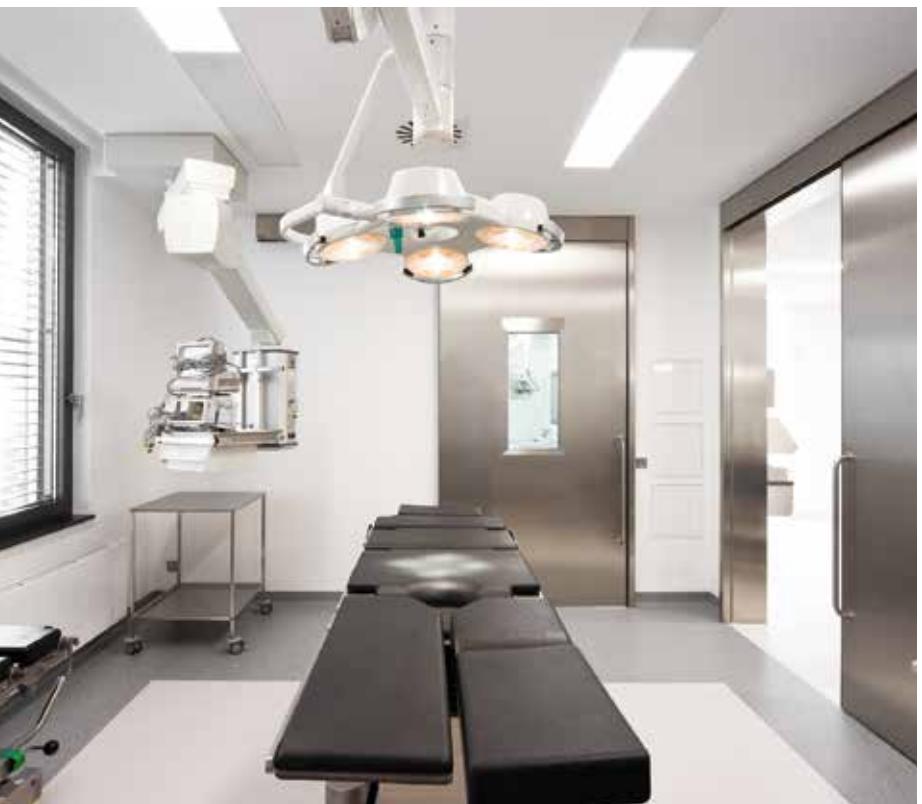

Design

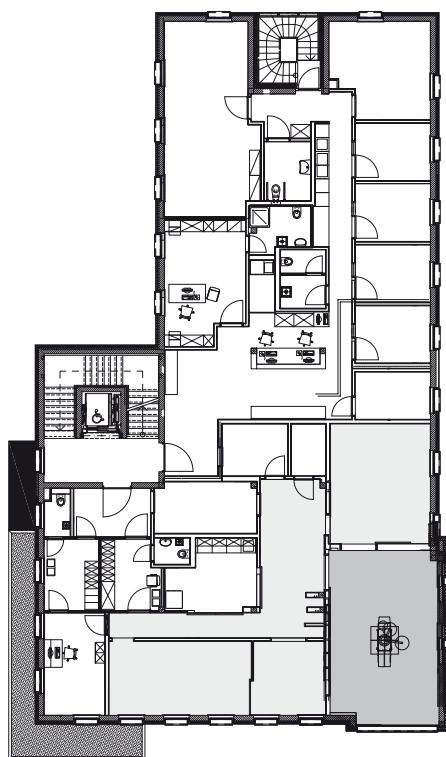

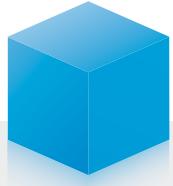

- Medical **furniture integrated** in the wall system
- **Surface** for cabinets and walls are **identical**

OPERATIONSBEREICH

OPERATING ROOMS

38

KOMPETENZZENTRUM FÜR KNIE- UND SCHULTERCHIRURGIE, SPORTORTHOPÄDIE

Bereiche

- 1 OP
- Patientenvorbereitung
- Flure und Möbel

Ausführung

- Raumhohe OP-Glaswand
- Bildschirme und Steuertableau im Glaswandsystem integriert
- LED-Beleuchtung im Wandsystem integriert

COMPETENCE CENTER FOR KNEE- AND SHOULDER-SURGERY, SPORTS CLINIC

Area

- 1 OR
- Preparation rooms
- Corridors with furniture

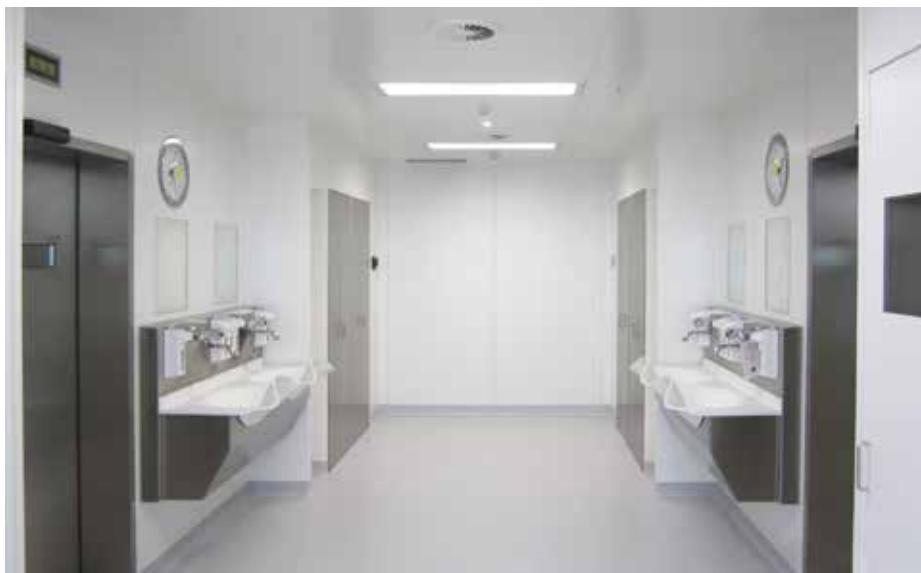

Design

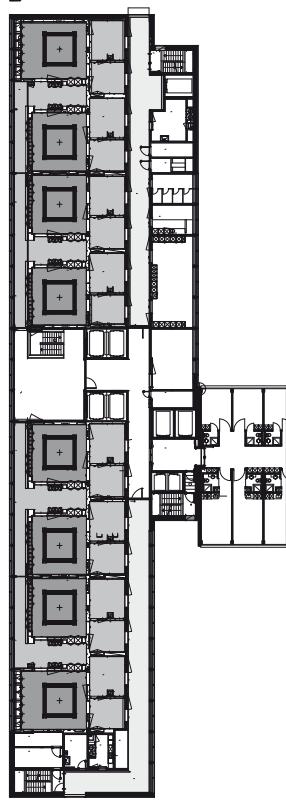

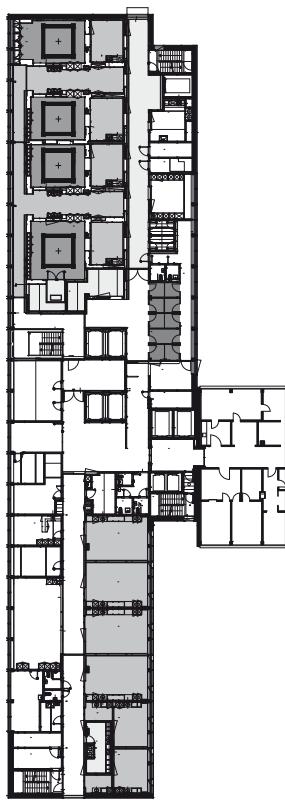

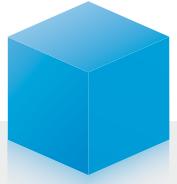

- Room-high glass walls
- Screens and control panel flush wall mounted
- LED-illumination integrated in the wall system

OPERATIONSBEREICH

OPERATING ROOMS

40

Switzerland - Bern - Lindenhofspital

ALLGEMEINMEDIZINISCHE KLINIK

Bereiche

- 12 OP Einheiten
- Ein-/Ausleitungen
- Flure mit Waschzonen
- Intensivstation mit Isolierzimmern
- Sprechkojen für Arzt-Patientengespräche

Ausführung

- OPs mit Strahlenschutz 0,5 mm Pb
- Schiebetüren mit Verblendung
- Durchreicheschränke zum OP
- integrierte Gasflaschen-Schränke

GENERAL HOSPITAL

Area

- 12 OR units
- Pre-/Post-rooms
- Corridor area with scrubs
- ICU with isolation rooms
- Meeting rooms for doctor and patient

Design

- OR with X-ray protection 0,5 mm Pb
- Covered sliding doors
- Pass-through cabinets
- flush wall mounted cabinets

PRODUKTPORTFOLIO

PRODUCT PORTFOLIO

Wandausführung

- Statische Unterkonstruktion als Vorsatzschale, vor bauseitiger Wand
- Statische Unterkonstruktion als Doppelschale, freistehende Wand
- Statische Traversen für alle Einbauten
- Wandsysteme mit Schall- / Brand- / Strahlenschutz
- Wandbeplankung Metall
- Wandbeplankung Glas
- Wandbeplankung Impact

Einbauten

- Elektrotableau
- Röntgenfilmbetrachter
- Bildschirme
- PC Arbeitsplatz
- Med. Gase / Medienbalken / Medienbrücken
- Uhren
- Verglasung
- Durchreicheschränke
- Wandheizung

Lüftung

- Abluftschränke
- Zuluftdecken / Umluftdecken
- Klimageräte / Lüftungsanlagen

Wall systems

- Static sub-structure single panelled, in front of a wall
- Static sub-structure double panelled, as a dividing wall
- Static crossbeams for all installations
- Wall systems with noise-/fire-/x-ray protection
- Wall covering metal
- Wall covering glass
- Wall covering Impact

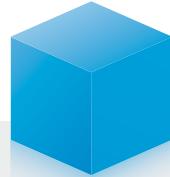

Installation moduls

- Electric control panel
- X-ray viewer
- Monitors
- Computer-Desk
- Medical gases / Medical bridges
- OR Clocks
- Glazing
- Pass-through cabinets
- Wall heating

Ventilation

- Exhaust air cabinets
- Laminar flow ceiling / Air circulation ceiling
- Air handling units

Decken

- Deckenpaneelle
- Reinraumleuchten
- Operationsleuchten
- Deckenversorgungseinheiten

Türen

- Drehtüren
- Schiebetüren
- Brandschutztüren
- Hermetische Türen
- Schallschutztüren

Waschanlagen

- Waschanlagen aus Mineralwerkstoff
- Waschanlagen aus Edelstahl
- Mischbatterien mit Armhebelbedienung oder Optoelektronik
- Seifen- und Desinfektionsmittelspender
- Spiegel

Möbelsysteme

- Metall
- Edelstahl
- Holz
- Impact

Ceiling

- Ceiling Panels
- Cleanroom illuminators
- Surgical lights
- Ceiling pendants

Doors

- Hinged doors
- Sliding doors
- Fire protection doors
- Hermetic doors
- Noise protection doors

Scrub facilities

- Scrubs made of mineral composite
- Scrub facilities stainless steel
- Combination taps with arm operated lever or optoelectronics
- Soap/Germicide Dispenser
- Mirrors

Furniture Systems

- Metal
- Stainless Steel
- Wood
- Impact

VORTEILE / ZIELE

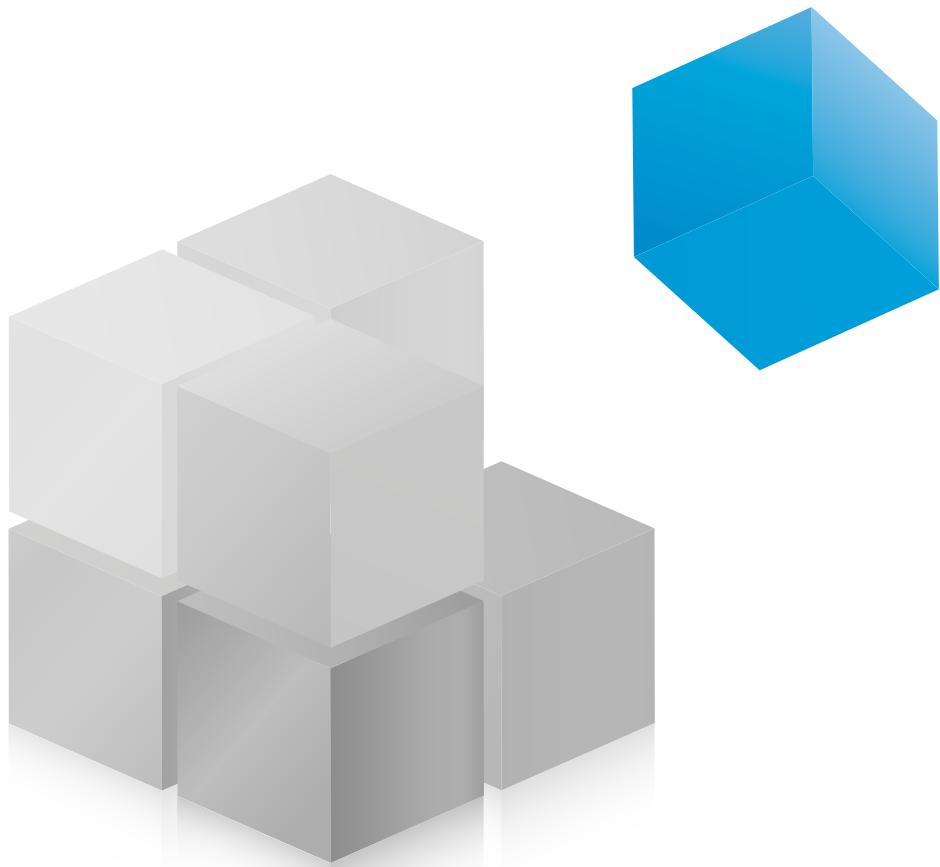

ADVANTAGES / OBJECTIVES

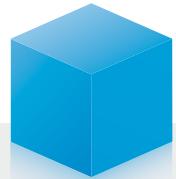

Unsere Vorteile

- Umfassender, integrierter und flexibler Konstruktions-Kit
- Innovative Detaillösungen
- Zertifikate für Hygiene, Brand-, Schall-, Strahlenschutz und Dichtigkeit
- Klar kalkulierte Investitionssumme
- Hohe Planungssicherheit vor Montagebeginn
- Kurze Montagezeit
- Offen für die Integration von neuen Systemen
- Recyclingfähige Baumaterialien

Our Advantages

- Comprehensive, integrated and flexible construction-kit
- Innovative detail solutions
- Certificates for hygiene, fire-, noise, radiation protection and tightness
- Clearly calculable amount to be invested
- High planning reliability before start of installation
- Short installation time
- Open for integration of new systems
- Recyclable building materials

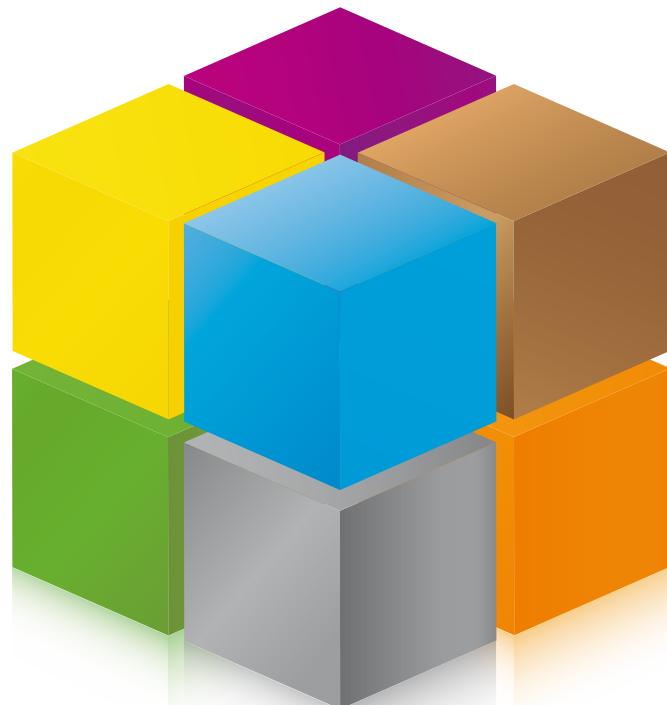

Unsere Ziele

- Intelligente Raumsysteme
- Optimale Strukturierung der Prozessabläufe
- Betriebskostensenkung durch wirtschaftliches und güteroptimiertes Konzept
- Hoher ästethischer Anspruch im Einklang mit Funktionalität
- Interdisziplinäre und multifunktionale Nutzung
- Flexibilität bei zukünftigen Entwicklungen der Medizin und Technik

Our Objectives

- Intelligent room systems
- Optimized structuring of the process flow
- Decreasing of operational costs by economical and commodity optimized concept
- High aesthetical standard consistent with functionality
- Interdisciplinary and multi-functional utilization
- Flexibility for future developments in medicine and technology
